

Riccarda Caprez is an experienced expert in climate adaptation, disaster risk reduction, and international environmental policy. Since 2022, she has served as a Program Manager at the Swiss Agency for Development and Cooperation (SDC), focusing on climate change adaptation and disaster risk reduction, particularly in mountain regions. In this role, she manages programs, contributes to national and international policy dialogues, and engages in strategic partnerships and multilateral organizations.

Previously, Riccarda Caprez held various positions at SDC and the Swiss Federal Department of Foreign Affairs (FDFA), working on global cooperation, sustainable development, and multilateral negotiations. Her expertise spans climate and environmental policy, the implementation of the 2030 Agenda, and institutional partnerships with the UN and Swiss research institutions.

With a Ph.D. in Environmental Sciences from the University of Basel, her academic background includes research on the impact of climate change on carbon cycles in Alpine forests, and the role of biodiversity in degrading mountain soils.
